DISPENSER-SOFT

DISPENSER-SOFT, Software,

Code: E42001.   **DESCATALOGADO**

Description

Dispenser-Soft software allows the managers of a microgrid to:

○ Configure the tariff system
○ Manage the different states of the microgrid, according to its energy level
○ Obtain a full list of users and dispensers of the microgrid
○ Generate bills
○ Alarm setup

With this Software, the microgrid manager will have full control over all units installed and will be capable of efficiently managing all variables and configurations of these units.

DISPENSER-SOFT

Code: E42001.
