

BAS-S261AC

,

Code: EBS155.

Description

Modular indoor energy storage solution for connecting in parallel to the grid, LFP lithium technology Initial capacity of 154 kWh and 25 kVA of power (up to 616 kWh and 400 kVA).

- Standardized energy storage system, expandable up to 4 x 154 kWh in terms of exchanging both energy and power with the grid.
- All-in-one AC-coupled plug & play solution.
- Rated storage capacity of 154 kWh.
- From one to sixteen three-phase next-generation 4Q inverters of 25 kVA, for a total of 400 kVA.
- Lithium iron phosphate technology for maximum operational and fire prevention safety.
- FLEPS, systems to maximise fire safety
- All-in-one energy management system with cloud connection to monitor all the installed systems, and a reliable remote maintenance service.
- Easier maintenance thanks to plug-in modules (battery modules, battery management system, inverter).
- Additional UPS system for safe operation during power outages.
- Certified as per the VDE AR-N 4105/4110 standard.

Application

- Electromobility
- Agriculture
- Industry
- Tertiary sector
- Reduction of spikes
- Emergency power
- Optimized self-supply
- Flexibility market
- Network services (voltage and frequency stabilization)

BAS-S261AC

Indoor energy storage solution

Code: EBS155.

Specifications

Mechanical characteristics

Size (mm) width x height x depth	1050 x 2400 x 1350 (mm)
Weight (kg)	2600
