

CUC96 400V Relé

CUC96 400V Relé

Code: M13735. (CONSULTAR DISPONIBILIDAD)

> 0

Description

A completely electronic circuit without moving parts allows easily activation of LED

Application

UC72 and UC96 types indicate the phase sequence type in three-phase networks.

CUC96, besides indicating the phase sequence type, have a relay with a free voltage switch-over contact. The relay opens in voltage lack situation or when the phase rotation sense is wrong.

CUC96 400V Rele

Code: M13735.

Specifications

Mechanical characteristics

Size (mm) width x height x depth	96 x 96 x 62.9 (mm)
Weight (kg)	0,375

UC / CUC
Phase sequence indicators

CODE	TYPE	Modules	Device
