

CUC96 400V Relé

CUC96 400V Relé

Code: M13735. DESCATALOGADO

> 0

Description

A completely electronic circuit without moving parts allows easily activation of LED

Application

UC72 and **UC96** types indicate the phase sequence type in three-phase networks.

CUC96, besides indicating the phase sequence type, have a relay with a free voltage switch-over contact.

The relay opens in voltage lack situation or when the phase rotation sense is wrong.

CUC96 400V Relé

Code: M13735.

Specifications

Mechanical characteristics

Size (mm) width x height x depth	96 x 96 x 62.9 (mm)
Weight (kg)	0,375

UC / CUC

Phase sequence indicators

CODE	TYPE	Modules	Device
M13721.	UC72 150...500V	72x72	UC72
M13731.	UC96 150...500V	96x96	UC96

CUC96 400V Relé
