UC96 100 ...150V, Sequence-Ind.

Code: M13736. DESCATALOGADO

> Measurement Range (V): 100150

> Device: UC96

> Modules: 96x96

Description

A completely electronic circuit without moving parts allows easily activation of LED

Application

UC72 and **UC96** types indicate the phase sequence type in three-phase networks.

CUC96, besides indicating the phase sequence type, have a relay with a free voltage switch-over contact.

The relay opens in voltage lack situation or when the phase rotation sense is wrong.
