

CUC96 230V

CUC96 230V, Sequence-ind. Relay

Code: M13754.

- > N° relays: 1
- > Measurement Range (V): 230
- > Device: CUC96
- > Modules: 96x96

Description

A completely electronic circuit without moving parts allows easily activation of LED

Application

UC72 and **UC96** types indicate the phase sequence type in three-phase networks.

CUC96, besides indicating the phase sequence type, have a relay with a free voltage switch-over contact. The relay opens in voltage lack situation or when the phase rotation sense is wrong.
