

MK-30-DC M:125Vcc

MK-30-DC M:125Vcc

Code: M303000000D00 DESCATALOGADO

- > Continuous energy meter
- > Measurement Range (V): 0...125
- > Measure: 30 Adc
- > Módules: 2
- > Paramètre: V
- > A
- > kW
- > kWh
- > Tariff: 1
- > Display: LED

Description

Electronic energy meter of direct current for DIN rails.

Other features include:

- O Voltage up to 800 Vdc.
- o 4-digit display with 7 red segments, highly efficient.
- o 2-module size.
- o Parameters measured: V, A, kW, kWh
- o 1 digital output with opto-coupled transistor.

Application

- Energy metering of direct current that can be used to control the energy consumed and the energy generated in solar power farms.
- o Energy control in telecommunications installations for subsequent management.

MK-30-DC M:125Vcc

Electronic energy meter of direct current for DIN rail mounting

Code: M30300000D00

Specifications

Mechanical characteristics Size (mm) width x height x depth 30 x 85 x 63.8 (mm) Weight (kg) 0,19

Applications for the photovoltaic power ind. (*) for shunt connections
