

## MK-SH-DC M:125Vcc

MK-SH-DC M:125Vcc

Code: M304000000D00 **DESCATALOGADO** 

> Contador

Direct current energy meter

### Description

Electronic energy meter of direct current for DIN rails.

Other features include:

- Voltage up to 800 Vdc.
- o 4-digit display with 7 red segments, highly efficient.
- o 2-module size.
- o Parameters measured: V, A, kW, kWh
- $\circ$  1 digital output with opto-coupled transistor.

### **Application**

- $\circ$  Energy metering of direct current that can be used to control the energy consumed and the energy generated in solar power farms.
- $\circ$   $\,$  Energy control in telecommunications installations for subsequent management.

Electronic energy meter of direct current for DIN rail mounting

Code: M30400000D00

## Specifications

# Mechanical characteristics Size (mm) width x height x depth 30 x 85 x 63.8 (mm) Weight (kg) 0,1

Applications for the photovoltaic power ind. (\*) for shunt connections
