

MC1-35-50/100/150 A, Current transformer

Code: M73116.

> Inner diameter (mm): 35 > System: Single-phase > Class 0,5 Power (VA): 0,25

> Measurement Range (A): 50/100/150

> Max. Current (A): 150

> Input current: 50/100/150 A > Transformer type: Closed core

Description

The transformers of the MC1 range are efficient current transformers. This range of transformers offers a measurement range from 150...2,000 A. They operate with a 250 mA secondary and feature 3 measurement ranges in the same transformer: simply changing a connection cable and the ratio selected in the measurement unit. MC1 transformers are only compatible with CIRCUTOR's MC range.

Application

- $\circ~$ In installations where the electric supply can be interrupted to install transformers.
- o Very useful for installing in places where the exact nominal current range is not known.
