Code:

Description

Electronic residual current protection relay, used to connect to the residual current transformers WG / WGC Series. These electronic relays offer a high reliability, with the option of a fixed or adjustable sensitivity and delay Type A relay with high frequency current filtering and high immunity. Monitoring of the true root mean square (TRMS).

- Assembly on DIN rail 46277
- Reduced size: 2 modules
- LED indicators:
 - Permanently lit leak indicator: LED Trigger relay
 - $\circ\;$ Flashing power LED and lit leak LED: detection of faults in the transformer's continuity
 - Flashing leak LED indicator:
 - $\circ~$ Leak with a value under the value selected
 - 1 flash every 2s: 25 ... 50% of the leakage current
 - 1 flash every 1s: 50 ... 75%
 - 2 flashes every 1s: 75 ... <100%
 - Permanently: 100 %

Application

The relays of the RGE series and the transformer of the WG / WGC series enable a full residual current protection for both single and three-phase lines. They guarantee maximum security and continuity of the electrical service, avoiding unwanted tripping.

Specifications

	CAT III 300 Vac (IEC 61010)		
Installation category			
Consumption	3 VA		
Frequency	50/60 Hz		
Nominal voltage	230 V~ / 110 V~ (±20 %)		
Mechanical characteristics			
Size (mm) width x height x depth	35 x 85 x 68 (mm)		
Envelope	Polycarbonate		
Fastening	DIN rail 46277		
Weight (kg)	0,163		
Environmental characteristics			
Protection class	IP 20		
Relative humidity (without condensation)	5 95 %		
Working temperature	-10 +50 °C		
Standards			
Electrical safety, Maximum height (m)	2000		
Electrical safety, Installation category	CAT III 300V ca		
Standards	IEC 60755, IEC 60947-2-M		
Electrical safety			
Insulation	Double-insulated electric shock protection class II (IEC 61010-1)		
Digital relay outputs			
Maximum current	10 A ~		
Maximum power	2500 VA		
Maximum switching capacity	2500 VA		
Differential protection			
Туре	Type A ultra-immunised		
Sensitivity (I∆n), A	0,03 5 seleccionable		
Delay time (t∆)	0.02 5 s (selectable)		
Protection			
LED indication	Power supply voltage Earth leakage tripping External transformer disconnectio Prealarm		
Measure	True root mean square (TRMS)
