

### MT-FDE 125AIII

MT-FDE 125AIII, Circuit breaker

Code: P20D62. **DESCATALOGADO** 

> Poles: 3 > In (A): 125 A

#### Description

Automatic switch with remote control of the MT-FDE Series, for currents of 80 to 250 A, 3 and 4 poles. Responsible for the protection against shortcircuits and overloads, but also used as a circuit breaker. The switch can be reclosed with two methods, depending on the adjustment of the motor group in the operations mode:

- o "MANU": executed manually with the same switch, following the OFF and ON sequence.
- o "AUTO": carried out with an electrical impulse, following the OFF and ON sequence.

#### **Application**

The MT-FDE Series is composed of motorized circuit breakers that can be activated remotely and can be used in any application that uses a connection/disconnection remote control. They are also used as circuit breakers associated to the self-reclosing relays, for example, RGU-10 MT or RRM. They are a vital accessory in the self-reclosing overload and residual current protection process.

### MT-FDE 125AIII

Motorized circuit-breaker (from 63 A)

Code: P20D62.

#### **Specifications**

AC power supply		
Frequency	50 60 Hz	
Mechanical characteristics		
Size (mm) width x height x depth	81 x 130 x 185 (mm)	
Fastening	Panel (base + plug-in socket)	
Weight (kg)	2,639	
Environmental characteristics		
Protection class	IP 40 (DIN 40050)	
Storage temperature	-55 +55 °C	
Operating temperature	-25 +55 °C	
Motor		
On / off pulse time	50 / 50 ms	
Minimum voltage	210 V ~	
Nominal voltage	230 V ~	
Thermal-magnetic protection		
Trip curve, Type	C ó D (según tipo)	
Nominal current In (A)	125	
Breaking capacity	25 kA (IEC 60947-2)	
Nominal voltage	240 / 415 V ~	

### MT-FDE 125AIII

Motorized circuit-breaker (from 63 A)

Code: P20D62.
