

RECB-C-4P-63-300, RCCB with reclosing system, type B

Code: P26M11.

> Poles: 4 > In (A): 63 A

> Reclosing mode: remote control

> Sensitivity: 300 mA > Breaking element: built-in > Type of protection: Type B

#### Description

RECB-C is a 4-pole type B RCCB for single or three-phase installatons linked to a smart reclosing motor, which enables safe reclosing of the corresponding RCCB. Compact device, installed as an RCCB, no need for any wiring between the motor and the RCCB.

The reconnection system or mode of this device is via remote input.

The device has an additional input for a remote trip, and an output indicating the status of the switch.

#### **Application**

Residual current protection device for all those electrical loads needing type B residual current protection and full, continuous power supply that are faced with unforeseen incidents not caused by electric insulation which cause the RCCB to trip.

- o Service sector: Air conditioning, cold storage rooms, UPSs, etc.
- o Industrial Sector: speed variators, UPSs, electrical machinery, industrial process systems.
- O Photovoltaic applications.
