

Router 4G/LTE Wifi

Router 4G, Router 4G Modem with Ethernet communications (includes PS + antenna + cable),

Code: Q30235.

Description

Our range of industrial cellular routers combines compact design and extreme durability to ensure reliable and secure communications, even in the most challenging environments.

With support for 2G, 3G, 4G, Wi-Fi, dual SIM, Ethernet ports, and RS232/RS485, depending on the model, our devices offer maximum connection flexibility for any scenario.

Some models are also universally compatible with all meters on the market and include all the accessories needed for quick, easy and hassle-free installation.
