

LCL-TH 35-12A-400

LCL-TH 35-12A-400

Code: R7K106. **DESCATALOGADO**

> Filter

Specifications

Frequency	60 Hz
Nominal voltage	400 Vca /480 Vca F-F (otras tensiones, bajo demanda)
Mechanical characteristics	
Size (mm) width x height x depth	365 x 570 x 217 (mm)
Envelope	Treated and painted steel. Frame RAL 1013 / Doors RAL 3005
Fastening	On the ground
invironmental characteristics	
Protection class	IP 20
Relative humidity (without condensation)	80%
Installation, location, position.	Inside
Operating temperature	+ 35 °C
lectrical characteristics	
Nominal current voltage drop	< 2 %
LC load current (RMS)	12 A
Residual current THD	Approx. 8%
urrent measurement circuit	
Allowable overload	1,5 lc (≤ 1 min.) + lc (≤ 5 min.) (at maximum operating temperature)
itandards	
Standards	UNE-EN 60439 , UNE-EN60831 , IEC 61000-6-3 , IEC 61000-6-4, CIa
