

eNext ELITE T-S2, Car park boxes

Code: V26440. **DESCATALOGADO**

> Energy meter: MID

> Communications: Ethernet | WiFi > Output type: 400 Vac - 32 A - 22 kW > Connector type: Type 2 socket

> Grid type: Three-phase

> No. Sockets: 1

> Earth leakage protection: 6 mAdc

Description

With a modern and minimalist design, the new eNext Elite range offers the best indoor charging option. The Elite series complies with the highest standards of performance on the market and offers remote management and monitoring and integration into management platforms based on the OCPP 1.6J protocol.

Application

These devices are specially designed to be installed in covered parking spaces that can be used to park vehicles of any type (cars, motorcycles, bicycles, transportation, cleaning, etc.), where the ability to manage power or users is required.
