All codes, with the exception of W10120. W10122. and W10124. correspond to monthly subscription prices. The prices for codes W10120., W10122. are one-time purchase prices. The price of code W10124. corresponds to 25,000 calls. A reading is understood as a variable that is periodically recorded, an alarm as an expression that is continuously evaluated locally and reported, and an actuator as a pre-configured (manual or programmed) remote control action.
